Policy Statement

This policy sets forth rules and procedures governing the safe and proper use of vehicles that are utilized in furtherance of Mercy College business or sanctioned functions. This Policy is designed to secure to the greatest extent possible the safety of drivers, passengers and pedestrians while members of the College community effectively carry out College business. As such, all drivers of Mercy College motor vehicles are expected to follow the rules and procedures outlined in this policy and to abide by all campus regulations and all local, state and federal laws.

Administration of This Policy

The Vice President for Operations and Facilities (“Vice President”) shall be responsible for the enforcement and execution of this Policy. The Vice President may designate responsibilities for carrying out this Policy as he/she sees fit, including but not limited to the Director of Transportation.

In the event that a student or an employee violates this Policy, the Vice President or designee will notify the individual in writing, and shall report the individual to the appropriate manager (i.e. Dean of Student Affairs for students, Provost’s Office for faculty and Executive Director of Human Resources for all other employees.)

Persons Covered Under this Policy

This Policy applies to all eligible Mercy College employees, students and service contractors who are approved to operate any of the types of vehicles covered under this Policy. Service contractors may be subject to additional requirements as set forth by the College, which will be communicated to the relevant company representative. Union employees should also refer to the UAW Local 2110 Collective Bargaining Agreement (CBA) for additional information. If any provisions in this Policy or the CBA conflict, the CBA shall take precedence for union employees.

Types of Vehicles Covered Under this Policy

All vehicles insured or indemnified by the College’s automobile or other insurance, as well as rental vehicles for College business, shall be subject to this Policy. Those vehicles are:

1. **College Owned or Leased Vehicles:** Any vehicle that is acquired by the College in any fashion and is legally obligated to be insured by the College when in use, including vehicles used for transporting people, utility vehicles, golf carts and maintenance vehicles.
2. **Specialty Vehicle:** Any vehicle other than a standard passenger vehicle (e.g. sedans, vans, etc.), or any vehicle designated as a specialty vehicle by the VP for Operations and Facilities (including but not limited to vans that hold 15 or more passengers and have a commercial license plate).

3. **Rental Vehicles:** Any vehicle rented by any member of the College community for a sanctioned College function.
4. **Employer Assigned Vehicle:** Any College owned or leased vehicle that is assigned to a specific employee.

Personal Vehicles

Personal vehicles that are owned by an employee or student, even when used in furtherance of College business, are not covered under this Policy. Individuals who drive a personal vehicle in furtherance of College business should refer to the [Mercy College Travel and Expense Policy](#) for approval and reimbursement policies. When an individual uses his/her personal vehicle for College business, the vehicle owner's personal automobile liability insurance is primary, meaning that the vehicle owner's personal automobile liability insurance policy covers bodily injury and property damage to third parties, as well as injuries to individuals in the vehicle. Mercy College will not cover or reimburse any expenses (including insurance deductible amounts) incurred to repair damages to a personal vehicle used for College business.

Under no circumstances are employees (including faculty members) permitted to drive students utilizing a personal vehicle, as those instances would not be covered by the College's insurance policy and could lead to liability on the part of the employee or the College.

The employee must make certain that annual inspections are performed, as well as all preventative and repair maintenance is performed in a timely fashion, including obtaining immediate service for serious component issues, such as engine lights and problematic noises. Failure to maintain the vehicle's condition in a reasonable fashion could lead to assignee's responsibility to repair or replace the vehicle, and/or losing the privilege to having an assigned vehicle.
- iv. Tax requirements. In addition, the Internal Revenue Service (IRS) requires the College to maintain documentation that substantiates an employee's business and personal use of a College vehicle (see Appendix B).

Employees with assigned vehicles are therefore required to adhere to the following guidelines:

- A. All eligible employees must be immediately added to Payroll's master list upon vehicle assignment; all required documentation must be properly obtained and completed by the employee; and final calculations must be substantiated.
- B. The Payroll Department must contact the Office of the Vice President for Operations and Facilities to request confirmation of all employees with a College Assigned Vehicle, so that the information can be incorporated into the final auto fringe calculation worksheet.

- D. The Assignee shall send the mileage certificate packets and forward them to the Payroll Supervisor in a timely manner. If records are not received as requested, IRS regulations require the value of all vehicle use be reported as wages, and the employee may then take itemized deductions for any substantiated business use.
