

The STEM Schools Network is a consortium of schools committed to empowering their K–12 STEM teacher leaders.

Membership to this exclusive Network provides your school and its faculty with numerous benefits to support STEM education. All within Mercy University's robust STEM programming and academic expertise.

Eligibility Requirements

You can apply to the STEM Schools Network if your school meets any of the following requirements:

- Teachers are enrolled in at least one of the five major Mercy University Center for STEM Education (MCSE) STEM professional development programs
- Participates in MCSE STEM programming like Saturday STEM Academy, the Verizon Innovative Learning STEM Achievers Program, or FLORES (Family Learning and Outreach for Research and Education in STEM)
- Is a Long Island Sound School or USA Blue School
- Several Mercy alumni are at your school

Benefits for Your School

The Network is committed to supporting the advancement of STEM educators and student engagement. Benefits for awarded schools include:

- A display banner featuring the prestigious STEM Schools Network designation
- Mini-grant funds for district STEM projects
- Discounts on annual Mercy STEM conference and other STEM professional development
- Access to STEM Lending Library of Robotics and Electronics
